Bharat Shiksha Expo 2024 Concludes with Resounding Success!

Summary of Concluding Session

Bharat Shiksha Expo 2024 wrapped up its maiden edition on an exceptional note, leaving an indelible mark as a premier education-focused expo in the region. With thousands of students, educators, and exhibitors, the expo successfully showcased innovations, industry-academic collaborations, and skill-building opportunities. The concluding session celebrated the Expo's achievements, reinforcing the significance of Knowledge Park as a knowledge hub and fostering a brighter future for education in India.

Dr. Indresh Kumar, Chief Guest

“The Bharat Shiksha Expo is a transformative platform, not only for enhancing education but for cultivating values and skills that can uplift society. The overwhelming response from students and institutions alike has been truly inspiring.”

- Team of The Manthan School include Tanishqa Sharma, Vansh Sharma, Anagh Jha, Mrinal ShriKrishna **3rd Prize**

Keynote Address by Mr. Shivam, CEO, Trans Neuron, Bangalore

In an inspiring keynote address, Mr. Shivam, CEO of Trans Neuron, Bangalore, shared valuable insights on the importance of cultivating curiosity and staying adaptable in a world of constant change. Emphasizing the need for fresh perspectives, he highlighted that, at times, it is crucial to step back, reflect, and articulate new ideas that align with evolving situations. "Sometimes, for writing new ideas and updating to current scenarios, we need to first understand our purpose and direction," he said.

He emphasized that in today's rapidly transforming landscape, learning shouldn't end at technical expertise alone. Rather, it should encompass the ability to question, innovate, and stay relevant in one's field. His thought-provoking words set the tone for an event focused on bridging the gap between present capabilities and future possibilities, leaving the audience with a powerful message about the role of inquiry and adaptability in professional growth.

Knowledge Sessions on Day 3

Knowledge Session on "Skilling India for the Future: Aligning Education with Industry Needs and Bridging the Skill Gap" by Mr. Madhur Mehrotra, Tech Adviser, Sales and Marketing, Murugappa Water Tech and Solutions Pvt. Ltd.

In a compelling knowledge session on preparing India's future workforce, Mr. Madhur Mehrotra addressed key challenges and solutions in aligning education with industry demands. He emphasized that, while knowledge acquisition is essential, a significant gap remains in the application of technical skills, business communication, and practical knowledge.

Mr. Mehrotra pointed out that schools and colleges often lack subjects focused on crucial soft skills, such as effective communication and business etiquette, which are essential in the modern workforce. He explained that communication should involve more than just talking; it should be a two-way interaction that fosters understanding, critical questioning, and active listening. This, he noted, is an area that requires enhancement in educational settings to better prepare students for professional environments.

Mr. Mehrotra encouraged students to cultivate a learning attitude and aptitude, advising them to "ask, listen, understand, and learn" rather than assuming they know everything. He emphasized that a true learning mindset includes developing listening skills, asking relevant questions, and avoiding assumptions. This approach, he believes, is crucial to lifelong learning and adaptability in a rapidly changing job market. This insightful session underscored the need for education reform in India, with a focus on industry-relevant skills that can make students more employable and industries more competitive, ultimately contributing to national development.

Knowledge Session on "Alignment of Skills for Developing Entrepreneurship and Promoting Startups"

The Knowledge Session on "Alignment of Skills for Developing Entrepreneurship and Promoting Startups" brought together a distinguished panel of experts to explore how effective skills training can ignite a culture of entrepreneurship among students and aspiring professionals.

The session was led by insightful discussions from esteemed panellists:

Dr. B.N. Singh, COO of Weaver Bird Engg. and Tech, shared valuable insights on the technical skills and practical knowledge needed to support startup growth, emphasizing the importance of innovation and adaptability.

Mr. Piyush Pandey, Director of Geologix Technologies Pvt. Ltd., highlighted the role of emerging technologies in entrepreneurship and how aligning students' skills with the latest industry trends can unlock new opportunities for startups.

Ms. Preeti Goel, Ex-Managing Director at City Bank & Barclays Bank India, drew attention to the financial acumen needed by entrepreneurs, underscoring the importance of understanding investment strategies and financial planning for scaling businesses.

Mr. Hari Shankar Shyam, Educationist, Corporate Trainer, and Business Consultant, spoke on the significance of developing a growth mindset, leadership skills, and resilience to successfully navigate the entrepreneurial journey.

The panellists discussed a range of strategies for nurturing an entrepreneurial mindset, from ideation to execution. They stressed the need for a structured approach to skills training that goes beyond theoretical knowledge, incorporating practical skills such as problem-solving, financial literacy, business communication, and leadership.

Knowledge Sessions on Day 3

Knowledge Session on "Connecting the Dots in Skill Education: Designing Skill Courses for Jobs, Self-Employment, and Micro-Entrepreneurship"

The session brought together experts to discuss the importance of designing skill courses that cater to diverse career paths, from traditional jobs to self-employment and micro-entrepreneurship.

Mr. Vidit Bhatia, Senior Engineering Manager at Adobe, emphasized, "We need to ensure that skill courses are not only aligned with current industry needs but also flexible enough to adapt to future demands. Skills should empower individuals to think beyond traditional job roles and explore entrepreneurial opportunities."

Dr. Saurabh Sharma, Registrar at Shri Rawatpura Sarkar University, Raipur, added, "Education should serve as a catalyst for both employment and self-employment. By integrating practical skill development into the curriculum, we can equip students to succeed in any career path they choose."

Sh. Iswinder Singh, India Lead at Net ACAD & Skills, Digital Impact Office, CISCO, highlighted, "The future of education lies in bridging the gap between academic learning and real-world applications. It's essential to offer courses that prepare students for jobs, self-employment, and micro-entrepreneurship in a constantly evolving job market."

The panel highlighted how these courses can empower individuals not just to secure employment, but also to explore self-employment opportunities and create their own small businesses. By bridging the gap between traditional education and industry needs, the session showcased how a comprehensive approach to skill development can pave the way for a more entrepreneurial and self-sufficient workforce.

Session on "Providing Skill Education to Young Girls for Creating Balance between Life and Work"

The session on "Providing Skill Education to Young Girls for Creating Balance between Life and Work" brought together two influential leaders, Prof. (Dr.) Shuchi Mehra, Professor & HOD at Chandigarh Group of Colleges, and Dr. Shweta Bhosale, Vice Chancellor at Mind Power University, to discuss the transformative power of skill education for young girls.

The session focused on empowering young girls with the necessary skills to achieve a balance between their professional and personal lives. The panellists emphasized strategies to bridge the gap in female workforce participation, advocating for more inclusive educational frameworks that provide girls with the tools for financial independence and career success.

Key discussions included promoting work-life balance, addressing challenges faced by women in the workforce, and the importance of fostering resilience and confidence in young girls. The session underscored the pivotal role of skill education in helping girls not only succeed in their careers but also maintain healthy personal lives, creating a more balanced and equitable society.

Testimonials: —————

Yogesh Kumar Yadav

Mind Power University, Uttarakhand

It's great to hear about your experience! Participating in the Bharat Expo and seeing the enthusiasm at the student gathering must have been wonderful. Events like these are truly important, as they benefit not only students but also universities, colleges, and other stakeholders. Your point about such platforms providing opportunities for networking, knowledge exchange, and new insights is absolutely right. These initiatives help students discover new career paths, while also offering organizations a better understanding of their objectives.

Rahul Karanwal

Rayan Group of Schools

Excited to be part of the India Expo, where we've set up our booth to connect with students from various schools. It's inspiring to see their interest in learning about the admission process. This platform gives us a wonderful opportunity to present our school and support admissions across institutions. It's my first experience here, and I'm truly enjoying it!

Rahul Kapoor

Assistant Professor, Dept. of Social Work, Gautam Buddha University

There is enthusiastic turnout at our stall in the Bharat Shiksha Expo! Over two days, students have shown keen interest, asking insightful questions about various disciplines at Gautam Buddha University. This expo is a fantastic platform for students to learn and for educators from diverse fields to share knowledge about our subjects and university.

Arti Khandelwal

GL Bajaj

Thrilled to see our students fully engaged—setting up impressive stalls, exploring VR and electric vehicle showcases, and proudly presenting their own innovative projects! It's fantastic to witness their excitement and creativity in action!

Meeta Bhandula

Principal, JP Public School, Greater Noida

Congratulations to the organizers of Bharat Shiksha Expo 2024 for uniting leading schools and institutions on a single platform. It's been an enriching experience for our students, with activities like robotics and Packathon sparking innovation and inspiration!

Dr. Sharbari Banerjee

Principal, Aster Public School, Noida Extension

It was a pleasure to attend this session and an honour to engage with such a show with our students. Our students explored so much here. I truly hope the students gained valuable insights and learned something meaningful today.
